Maroochydore Qld 4558

5th September 06

Dear Jeremy.

Anne and I would like to thank you for the sound investment advice that you gave us in May this year, and the way you worked with our accountant to set up our own self managed superannuation fund.

Our monthly income is now flowing without a hitch and with some reasonable budgeting it is allowing us to have a very relaxed life style. We keep on working when we feel like it and travel all over Australia through the business, knowing full well, if we don't feel like working for a month or so we still have our monthly income from our super.

The business does not have to worry about tax any more as it just keeps putting money in our super fund instead of paying us a wage.

Your news letters are full of valuable information and you have a wonderful way of passing information without being boring, like some financial news letters are.

Most of all, you treated Anne with the utmost respect (which some previous financial planners have not). You listened to what we wanted and then came up with a plan, and you did not at any time try to push us into something we did not want or understand.

That is what I call professionalism and there is not a lot of it out there.

Kindest regards

David Winter
